

A rare George III "Ropework" Caddy Spoon made in Birmingham in 1808 by Samuel Pemberton.

Description

The Caddy Spoon displays an egg shaped bowl which is beautifully engraved with an outer band of twisted ropework on a scratch engraved ground. The stem is also decorated with this design and a cartouche engraved with a set of contemporary script initials. The design of spoon is typical of those produced by Samuel Pemberton, however ropework is a very unusual design. This example is in excellent condition and is very well marked.
